**FOR IMMEDIATE RELEASE**

## **Paving Along I-580 within the Altamont Pass**

**ALAMEDA COUNTY** – Caltrans has started paving project on westbound I-580 from the Grantline Road Exit to the Greenville Overpass in eastern Alameda County. The new pavement will provide the 200,000 daily commuters long-awaited relief through the heavily-traveled Altamont Pass.

The paving project is scheduled to be complete in a month, weather permitting. The work will take place between the hours of ten p.m. and four a.m. At least one lane will remain open at all times.

This is the latest in a series of improvements along the Tri-Valley Corridor within the last year. In 2016, the I-580 express lanes were completed and have improved the commute along the 14-mile Tri-Valley corridor through Dublin, Pleasanton and Livermore. Additional corridor improvements include installation of auxiliary lanes, widening of the existing roadway and bridges, pavement rehabilitation and construction of retaining walls.
